

Students will purchase a supply kit for this class. Fees for this kit will be announced and collected by April 30th. Susan is currently hand-dying fabrics for the backgrounds, and putting together other materials needed to create your 'branches & bark'.

Some thread is included in your kit but it's a good idea to bring invisible thread if you don't want your stitches to show in certain parts of your project, along with some greens, browns, greys.....earthy woodsy tones like you would see in a forest..... Also, when you pack up your machine, **please make sure you bring your free motion foot.**
