

I have asked students to bring a stabilizer called Totally Stable (made by Sulky) and in case this isn't readily available in your area I am going to sell a kit containing the stabilizer, muslin, and fusible for \$15.00. This is 'at cost' so it might save some of your students a bit of bother. On the other hand, it might be a great excuse to head to the quilt store for a visit.

I haven't specified a particular date to contact me if anyone wants me to posterize their photo but I certainly prefer to get these sooner than later. In the past, I have had students contact me the night before class and I'd like to avoid this, as you can imagine.
